INSPIRE GUIDE

In the name of Allah, the Most Gracious, the Most Merciful. My brother in Allah, the lone Mujahid, I ask Allah to grant you success in all goodness, to guide your aim and to blind the eyes of Allah's enemies to you.

We have been away from you since we last connected through this publication and here we are returning to you with a new issue of Inspire Guide, acting upon the saying of Allah the Almighty: **"And cooperate in righteousness and piety"**, for our sacred Jihad is one of the greatest forms of righteousness that we cooperate on.

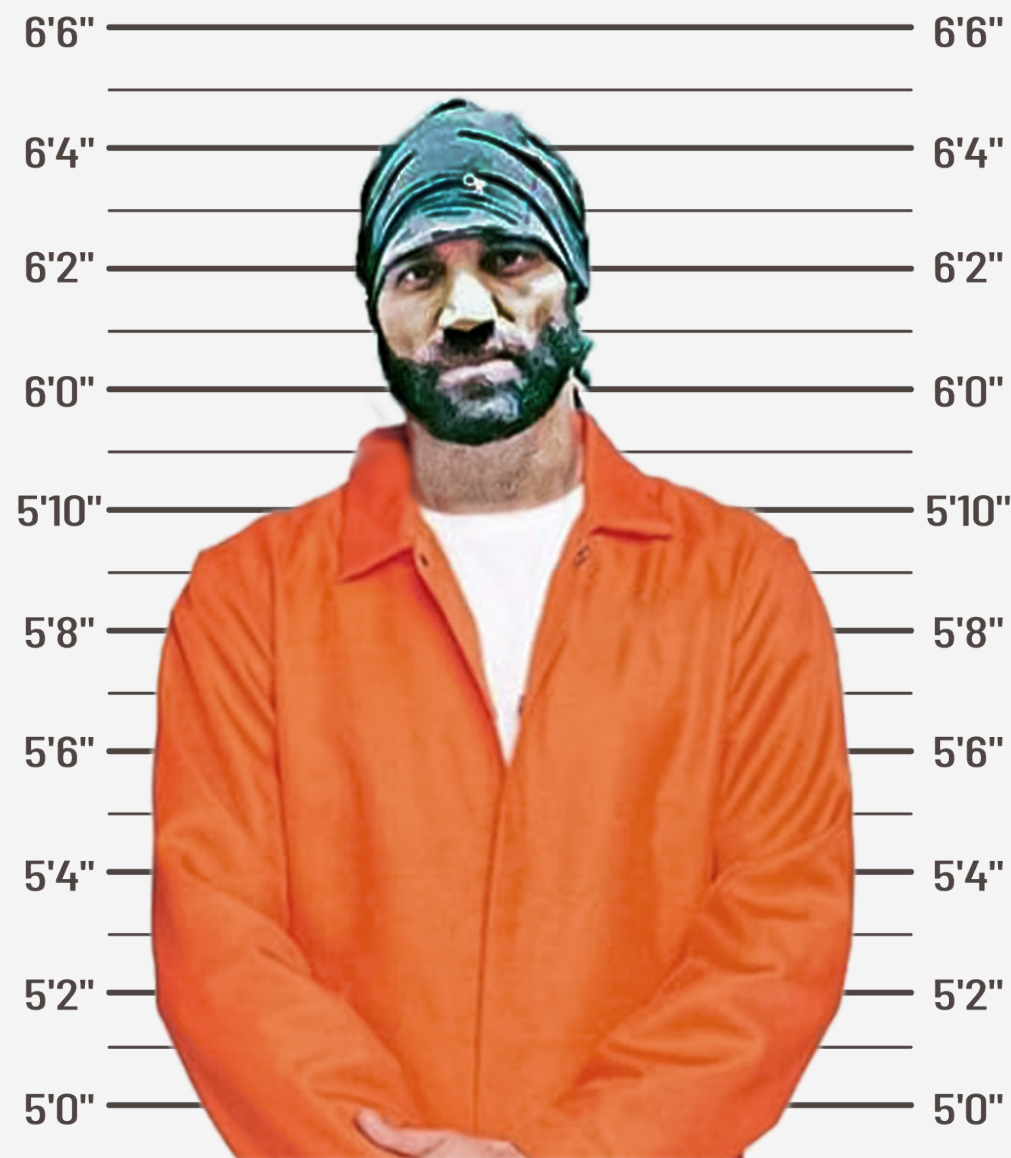

This time, we add to your list of targets a group of

killers, who have killed many of your Muslim brothers in Yemen, including mosque imams, may Allah have mercy on them. The individuals we will mention here have publicly confessed and admitted in front of the world what their hands have committed.

In addition to being infidel combatants, they have shed Muslims' blood for a fee they received from the apostate UAE government. We ask Allah to make their disappearance imminent in the near future. Amen.

NEW TARGETS

My Mujahid brother, your first target is the American criminal (Isaac Gilmore). Gilmore openly confessed in a BBC documentary named **(The American Mercenaries; Missions To Kill In Yemen)**. This criminal said: **"We had a demand, and that demand was one and a half million dollars a month."** Indeed, my Mujahid brother, Gilmore is one of the hired killers who take lives for money, and the victim is not killed except because he says my Lord is Allah.

THE KILLER DEL COMSTOCK

As for your second target, it is the so-called: Del Comstock. His description: Blue eyes - large nose - bald head - thick mustache extending to his chin.

He was a former soldier in the American Crusader forces, and is currently running a training center in the state of Florida, USA. He confessed in the same documentary that he carried out killings in Yemen, saying: "Everything we did, we made sure we were doing the right thing". When asked: How many targets were assigned to you? He replied: "More than forty". So, my Mujahid brother, look at the magnitude of this horrible atrocity, and the size of this bragging and reassurance after killing more than forty Muslims in Yemen. This is what he confessed to, and what was hidden was greater.

THIS IS A PHOTOGRAPH OF THE THREE WANTED CRIMINALS

What I want to remind you of, my Mujahid brother, is that the enemies of Allah like these killers, live among their families in their own countries and protected by their criminal government. Meanwhile, the families of the victims, who were killed by these treacherous disbelievers endure immense suffering. How many orphans grieve the loss of their fathers, how many widows mourn their husbands and how many mothers lost their sons ... the list of tragedies goes on. We belong to Allah and to Him we shall return. So, my Mujahid brother, never underestimate any action you take in the cause of Allah, no matter how small it is. Perhaps through your individual operation, be it the bomb

you make in the kitchen, or by using your firearms, or through running them over with your car, or by any method you see fit, by permission of Allah, you may disturb their peace, undermine their security and made them live in fear haunting them for the rest of their lives. So, rely on Allah and do not forget that your reward is great with Allah the Almighty, even if the prize is simply salvation from Hell-fire, it is more than enough. As the Messenger of Allah, peace be upon him, said: **"A disbeliever and his killer will never meet in Hell-fire."**

To make your work precise, free from errors, you must adhere to the followings:

■ **Security procedures.**

■ **Steps to carry out the operation.**

- 1- Be keen on reading prayers and morning and evening remembrances, relying on Allah, and increasing the remembrance of Him.
- 2- Complete confidentiality and secrecy.
- 3- Monitoring the target accurately and gathering the most information.
- 4- Mixing with the environment and avoiding arousing suspicions.
- 5- Avoiding surveillance cameras as much as possible.
- 6- Moving randomly.
- 7- Not leaving any trace and ensuring the erasure of all fingerprints.

- 8- Self-control, relaxation, and avoiding stress.
- 9- Choosing the appropriate time and place to carry out the operation.
- 10- Targeting individuals from the closest possible distance.
- 11- Sending a message to the media through temporary mail explaining the motives of the action.

Finally, O lone Mujahid, get at these killers, take revenge for your brothers, terrify the enemies of Allah with your heroic and bold operations and let them know that Muslims' blood is not to be traded by the disbelievers, the wicked ones.

Jihad in the **cause** of **Allah** is the **only solution** for the Islamic Ummah to overcome the inherent crisis that it currently facing. It is the only way to preserve its dignity and protect its community. It is the peak of Islam, and Allah chooses from His servants whom He wills to reach this peak and confront the enemies of Islam in their territories. It is a task designated for the distinguished few, whom Allah has chosen to avenge the Ummah against those who cause it suffering. **Congratulations to those whom Allah has chosen for jihad in the cause of Him.**
